FOUNDER'S MESSAGE

Dear Friends,

We are living in an increasingly violent and unsafe world. Drug addiction is one of the biggest menaces that the children face today. Available statistics on drug addiction in street kids in India show alarming numbers. A UN report on child-soldiers states that this malaise has crept into India too, where children are being used in armed conflicts. Digital addiction is reaching epidemic proportions and children are hooked.

Children are increasingly getting distanced from everything that makes life meaningful and beautiful - family, friends, nature, culture, history, poetry and music. While scientific advances are exciting, too much of technology in our lives is making zombies of us, and we are slowly getting unmoored from reality. In such a milieu, how can we ensure that our children are fruitfully engaged, educated and skilled to face life's challenges with courage and fortitude? What can we do to make the children realize that life is indeed beautiful?

I am excited to announce that ACT is creating after school interventions to sensetise children to heritage sites and natural environment. The aim is to light the spark of curiosity, enthusiasm and wonderment about the world in the children's minds. This I believe will create happier children with rounded personalities. So, folks, it is time to log off from the virtual world and get real.

Yours truly,

Sujata Mehta P.

Poor quality of education in government schools and rising school fees year after year have led to steep dropouts at primary and secondary levels.

Thamarai is 6 years old today and attends class 1 at AGCC school.

Lotus flower

Thamarai

Thamarai is Lakshmi's third daughter. Thamarai's father and his family wanted a son and were extremely disappointed when she was born. They continued to mistreat Lakshmi but Lakshmi was determined to give Thamarai a happy childhood just like her other two daughters Kasturi and Kritika.

Thamarai came to ACT when she was 4 years old. She was a shy child who would hide behind her mother's sari and would refuse to leave her side. Over time she has blossomed into a confident and friendly girl who loves to dance and makes friends. Thamarai is six years old today and attends class 1 at AGCC school.

Our wisest volunteer

Sanjeev Sahi

I first heard about ACT from Ashraya located at Indiranagar. I visited to explore the possibility of volunteering. They showed me the coaching center on the terrace of their premises where ACT was teaching students after schooling hours. I came to ACT - as a volunteer in October 2017 to teach mathematics and science to students of class VI to X. Now, this is what I do at ACT - I teach at the Kannada and Tamil schools, the learning center and the Indiranagar center. I have also been associated with the functions of the trust along with the other trustees. I got an opportunity to be a part of the excellent work the trust did collaborating with Faurecia to restore a one hundred and six year old Heritage building located at the Govt Kannada higher primary school at Murphy town.

Working with children has changed me. It made me look at life as an endless river of opportunities to share and partake of their innocence, curiosity and capabilities. It's my responsibility to ensure their holistic well-being.

I began to appreciate ACT's outstanding contribution to empower underprivileged children. It was very memorable to witness the synergy and high-level professionalism during the Annual Day Celebration. In my 40+ years of work life, this event was one of the best I have watched and been part of. At ACT, I look forward to being of value to fulfill the vision set by the trust.

What I like doing best here is sharing innovative and creative ways of learning with the children. Every child and mother associated with ACT has the potential and opportunity to transform their daily lives.

"Their innocence, curiosity and capabilities are contagious and they have taught me to look at life as an endless river of opportunities to share and partake learning and knowledge "

STORIES THAT MATTER

Priya Darshani and Shilpa are two of the brightest and most hard working girls from the 2018 batch.

Shining Stars

Priya Darshini and Shilpa

My name is Priya Darshini. I joined ACT when I was in the 4th grade and at that time I wanted to become a teacher when I grow up. I like to write poems and stories and love reading novels. I have two younger brothers. One of them is studying in 1st PUC and the other is in the 8th grade. I love my family a lot. My father is a daily wage labourer and my mother is a housemaid. Due to their financial constraints they enrolled me at ACT.

After joining ACT I have learnt many things. I can use a camera, work with a computer, use Excel and make presentations using Powerpoint. All this has been possible with the help of the ACT volunteers. I'm really thankful to them because even when I perstered them with the same query multiple times, they would answer patiently and without any hesitation. I scored 80% in 10th Grade. I am currently helping with handling petty cash at ACT, which is also helping me do well in my accounts subject in college.

My happiest memories at ACT are going on our annual trips to Mysore. At present, I am studying at RBANMS PU College and I'm really happy that I scored 89.5% in 2nd PUC. My dream is to join St. Joseph's College of Commerce for my graduation course.

Priya Darshini

I am Shilpa S. I joined ACT in 2011 when I was in 5th standard. I am currently studying in 1st year B.Com at St. Joseph's College of Commerce. I stay with my parents and younger brother and sister. My sister is also part of ACT and she is currently studying in 1st PUC at RBANM's PU College.

When I joined ACT I was very weak in academics, but with the help of ACT volunteers, I passed my 10th and 12th exams with good marks. I scored 100% marks in my accounts paper in the 12th exam. Apart from studies, I have learnt many things at ACT like making candles, working with Excel, making Power Point presentations, time management, accounts work etc. ACT also taught me that "learning from others is easy but teaching others is a very difficult task".

My family is financially challenged. ACT is my second home. It gave me everything that my parents and family members couldn't afford. With the help of ACT my family and I are very happy.

Government school renovation

Murphy town, Ulsoor, Bangalore

It was love at first sight for us when we saw the Government Kannada Higher Primary School, Murphy Town, Ulsoor, in 2016.

When we were asked by the BEO if we would be interested in adopting the school, we were excited and set off immediately to see the school for ourselves.

It was clear that the building was dilapidated and in urgent need of extensive repair.

We found a like-minded supporter in Mr. Dhana Radhakrishnan, Director, India Engineering at Faurecia Clean Mobility. He helped us mobilise funds from his company to get the school renovated.

After getting permission from the BEO, we had multiple ideation sessions with the architects (IIID BRC) and the contractor aimed at charting a renovation plan while preserving the heritage of this beautiful 100+ year old building.

The renovation of the school building began in mid-October 2018.

Care was taken to ensure that the original building materials were retained as much as possible.

For instance, the original wood used in the building was reused for making the doors and windows.

A very interesting feature of the renovation is that no concrete has been used anywhere in the building.

The traditional lime, jaggery and mortar was mixed on site and has been used to plaster the walls.

ACT takes great pride in its role of facilitating the renovation and transformation of the old school building into a more efficient space while retaining its original façade.

The fully renovated school building is commodious, user friendly, comfortable and aesthetic.
